What have family members said about our services?

"I would like to say the prior reviewer's experience mirrors my own. I'm grateful for the services this organization continues to provide for my 100-year-old mother. She first needed only occasional company and assistance, and the first aide who worked for my mom was the cheerful and competent presence she needed. At a later stage, two caring and well-trained aides provided more assistance. Now mom receives live-in care, and I'm confident her aide gives mom better attention and care than she could receive anywhere else, including from me. I would rate as "extraordinary" all of these areas: hygiene, dressing, monitoring of appropriate/adequate food, liquids and rest, proactive attention to medical issues, monitoring of appointments, and--perhaps best of all--cheerful and caring companionship. We're grateful that Faith Care and Companion Service's experienced workers are our helpmates at this stage in mom's long life." Janice B.

Why Faith Care and Companion Services LLC?

Our Mission is to provide clients with the necessary support needed to allow a client to live in their own home in a comfortable and safe environment. Our home care services begin with an intensive assessment to determine the individual needs of the client. We pride ourselves on the highest quality care from our Home Health Aides (HHA) and Certified Nurse Assistants (CNA). We faithfully coordinate continuity of care with the client's doctors, nurses, and therapists. We specialize in Alzheimer's, Dementia, and Parkinson's diseases.

Faith Care & Companion Services LLC is an agency that provides independent caregivers and Housekeepers who will work directly for you.
